

Hello Monterey Middle School Families,

Our Home School Coordinator for International Students has asked us to reach out to our families to see if there were any families that would be able to sponsor an international student for homestay this coming school year.

Specifically, they have asked us to reach out to families in the area who may be interested in opening their home to an international student. The District Homestay Program supports both middle school and high school students, and they are actively seeking caring host families within the community. We have a student coming in September who will be attending Monterey! She is an avid figure skater, and she would like to be in a home locally with your child.

Hosting an international student is a rewarding opportunity to support global learning and cultural exchange while providing students with a safe and welcoming home during their studies. The Homestay program has good compensation and amazing support for our host families and students. If you have any questions or would like to learn more about becoming a homestay family, please contact the Homestay Office. They would be happy to provide more information and answer any questions you may have.

Thank you for considering this meaningful opportunity.
